

Ali Al-Khattawi

Lecturer in Pharmaceutics at Aston University

Birmingham, , GB

Dr Al-Khattawi's research interests are on the development of innovative particle design and fabrication strategies.

Biography

Dr Al-Khattawi joined Aston University as a Lecturer in Pharmaceutics in 2016. His research interests are centred on the development of innovative particle design and fabrication strategies that can contribute to the future precision manufacturing of pharmaceutical products. Ali has expertise in pharmaceutical particle engineering gained throughout several industrially focused projects. His group has expertise in pharmaceutical spray drying for solubility enhancement, control of particle structure, meso and macro-porous carriers for drug delivery as well as other novel particle manufacturing and characterization techniques. They also support the industry on a regular basis through the development of new technical solutions.

Areas of Expertise

Pharmaceuticals, Pharmaceutical Products, Pharmaceutical Particle Engineering, Fabrication Strategies

Education

Aston University - Aston Pharmacy School

PhD Pharmaceutics / Drug Delivery

Aston University - Centre for Learning Innovation and Professional Practice (CLIPP)

Postgraduate Teaching Certificate

Kingston University - School of Pharmacy and Chemistry

MS Pharmaceutical Sciences

University of Baghdad - School of Pharmacy

BS Pharmacy

Accomplishments

International Pharmaceutical Excipients Council (IPEC) Research Excellence Award

2013
