Allison Aiello, Ph.D., M.S.

Professor and Social Epidemiology Program Leader at UNC-Chapel Hill

Chapel Hill, NC, US

Dr. Allison E. Aiello is a professor of epidemiology at the University of North Carolina at Chapel Hill.

Dr. Allison Aiello received her PhD with distinction in epidemiology from Columbia University's Mailman School of Public Health and was the recipient of the Ana C. Gelman award for outstanding achievement and promise in the field of epidemiology. Her research investigates psychosocial, socioeconomic and racial/ethnic disparities in health; the relationship between infection and chronic diseases; and prevention of infection in the community setting. She has identified relationships between psychosocial determinants and immune response to infection and helped uncover social disparities in the burden of infection and immune response to cytomegalovirus in the United States population. Currently, Dr. Aiello is the PI of several NIH funded studies where she is examining social, behavioral, biological and genetic determinants of health outcomes.
