

# **Andrea Zandoná, Ph.D., D.D.S.**

**Associate Professor, Operative Dentistry at UNC-Chapel Hill**

Chapel Hill, NC, US

Dr Zandoná's research into the prevention and management of dental caries has led to federal and industry funding.

---

Andrea F. Zandoná, D.D.S., M.S.D., Ph.D., is a tenured Associate Professor at the Department of Operative Dentistry at the University of North Carolina at Chapel Hill School of Dentistry (UNC SOD). Dr. Zandoná is originally from Curitiba, Brazil, where she received her dental degree from Pontificia Universidade Católica do Paraná. Dr. Zandoná earned her master's degree in dental sciences in operative dentistry and a Ph.D. in dental sciences from Indiana University. She was a faculty member at Indiana University from 1998 until 2013, directing their graduate residency program in preventive dentistry. Her research interests in early caries detection, prevention and management of dental caries has led to federal and industry funding. She has published and lectured nationally and internationally on prevention and management of dental caries, serving on editorial boards and as reviewer for numerous scientific and dental journals. Dr. Zandoná's clinical focus is on providing state of the art evidence-based practice of preventive and conservative management of dental caries. Her academic focus is on development of the cariology curriculum for the D.D.S. program at the UNC School of Dentistry.
