

Andrew Pearson

President at Intelligencia Limited

Hong Kong, , HK

President at Intelligencia Limited

Biography

ANDREW PEARSON was born in Pakistan, grew up in Singapore and was educated in England and America. With a degree in psychology from UCLA, Pearson has had a varied career in IT, marketing, mobile technology, social media, esports and entertainment. In 2011, Pearson relocated to Hong Kong to open Qualex Asia Limited, bringing its parent company's experience into the ASEAN region. In 2016, Pearson started Intelligencia Limited, a leading implementer of analytics, BI, CI, data warehousing, data modeling, data visualization, digital marketing, mobile, social media and cloud solutions for the gaming, casino, finance, hospitality, sports betting and retail industries. Pearson is currently working on projects in countries such as India, Hong Kong, Macau, Singapore, Mexico, Malaysia, the Philippines and Australia. Pearson has also leveraged Intelligencia's expertise to implement software solutions from such vendors as Alicloud, SAS, HDS, Qlik, Tableau, and TIBCO at some of the world's biggest casino operators, lottery companies, and sports books. In 2009, two books that Mr. Pearson edited appeared in print; the first in the Double Down on your Data series, Clive Pearson's How Analytics is Revolutionizing the Casino Industry and Santiago Maggi's Investment Strategies for Uncertain Markets, a book about the financial markets that presciently predicted the 2007 global financial meltdown. In 2010, Pearson also wrote The Mobile Revolution and it was published by Qualex Publishing. In 2013, Pearson was invited to write a chapter in Global Mobile: Applications and Innovations for the Worldwide Mobile Ecosystem, a book on mobile technology. The book, which was co-authored by several of the mobile industry's leading figures, was published in July 2013. In 2017, Pearson published The Predictive Casino, a book about how analytics should be used in the casino industry. This was followed by other books in the Predictive series, The Predictive Sports Book, The Predictive Retailer, with others soon to follow for the aviation and insurance industry. Pearson is also a noted columnist, writing on topics such as mobile media, social media, predictive analytics and cloud technology for such publications as ComputerWorld HK, The Journal of Mobile and Social Media Marketing and The Mobile Marketer.

One of the speakers at the Macau ICT Forum, which was a unique event held in Macau, SAR China, aimed squarely at senior IT management and business manager from various booming industries. The Forum is where enterprise tech decision makers gain the knowledge, tools and insight required to lead IT in 2012 and beyond.

Double Down On Your Data

Editor of the book Double Down On Your Data, a book that was written to show casino management how to best cull through their in-house patron data to discover who their most profitable patrons are, and also to show them how to market to these individuals to create a long, lasting and highly profitable relationship. The book will be published in September 2012.

Mobile Foundations and Futures

One of the authors of Mobile Foundations and Futures, a book that will be published by InfoToday Group in December 2012.

Sunday Macaroni Club

Zoetrope Quarterfinalist screenplay.

Going Mobile: Going Social

Going Mobile: Going Social reveals how businesses of almost any type can benefit from mobile and social media technology. Social media is about more than just connecting with friends on Facebook or uploading videos to YouTube or photographs to Flickr. It is more than just making comments on a blog or firing off a tweet on a microblog. http://www.amazon.com/Going-Mobile-Social-Andrew-Pearson-ebook/dp/B00Q49WHD4/ref=sr_1_1?ie=UTF8&qid=1418043585&sr=8-1&keywords=going+mobile+going+social

BetWatch? - utilizing Big and Fast Data to help sports books manage risk

Developing a real-time, risk management solution for sports books that can help mitigate risk as well as provide a first-class customer experience. Built on SAS, SAP HANA, and ITRS's Valo, BetWatch segments customers via relevant wagering metrics applicable to the customer, i.e. the sports book (SB), so that meaningful segments are created. The solution attempts to understand a bettor's gambling habits and, more importantly, how they affect the SB's fiscal bottom line.

Journal of Digital and Social Media Marketing

I write for the Journal of Digital and Social Media Marketing on subjects that include mobile and social media, BI, predictive analytics, in-memory computing, amongst others.

Journal of Business to Consumer Marketing

I write and am an editor for the Journal of Business to Consumer Marketing.

Digital Trends

As a digital evolution sweeps across every demographic and industrial sector, Forbes Middle East's first event exploring the digital world will create a platform for the region's leaders to delve into the technological innovations and challenges changing the game for their businesses.
