Sample Talks

Mastering Local SEO

Google's Venice update has changed the way online businesses need to address their local strategy. This potentially effects every online business even if you only target market is global. Everyone should now incorporate a local SEO strategy simply to safeguard their online presence. Google's desire to give users personal results now means that logged in or not ? if you search for a locally provoked search term (without including a location) you will see local results. Are you ready?
