

Arnold Purisch, Ph.D.

Associate Faculty - School of Psychology at Fielding Graduate University

Laguna Hills, CA, US

Neuropsychology; behavioral change due to traumatic brain injury; psychiatric disorders; forensic psychological evaluation

Biography

Arnold Purisch, PhD is co-author of Neuropsychology for Psychologists, Health Care Professionals, and Attorneys (2007, CRC Press.) An adjunct faculty member in the School of Psychology at Fielding Graduate University, Dr. Purisch is an expert in neuropsychology; behavioral change due to traumatic brain injury; abnormal brain function; psychiatric disorders; medicolegal evaluation and forensic psychological evaluation. Dr. Purisch has conducted groundbreaking research on how to distinguish mild traumatic brain injury (TBI) from psychiatric disorders and other factors. Further research delves into ways of proving TBI in closed head injuries. Dr. Purisch received his PhD in clinical psychology from the University of South Dakota in 1978, and became a qualified medical evaluator in 1991.
