

# **Lisa Platt**

**Assistant Professor at University of Florida**

Gainesville, FL, US

Lisa Platt's research focuses on using artificial intelligence and dynamic modeling to evaluate designs that reduce risks to human health.

---

## **Biography**

Lisa Platt is an assistant professor in the College of Design, Construction and Planning. Her research focuses on using artificial intelligence and dynamic modeling to evaluate scenarios for preventative designs that reduce risks to human health. This research includes how phenomena such as climate change, which is having a demonstrated effect on infectious conditions and disease epidemiology, impact community health infrastructure and health system resilience.

---

## **Industry Expertise**

Renewables and Environmental, Health Care - Services, Computer Software, Social Media, Design

---

## **Areas of Expertise**

Systems Design for Public Health, Prevention Through Design, Human Factors Safety, Climate Change, Interior Design
