

Beth Virnig

Dean and Professor at University of Florida

Gainesville, FL, US

Beth Virnig's research examines how patient factors and system factors combine to influence health care and health outcomes.

Biography

Beth Virnig's research focuses on cancer care, women's health, end-of-life care and the measurement of racial and ethnic disparities in care and health outcomes among Medicare beneficiaries. Beth's work has been funded by the National Cancer Institute, the Agency for Healthcare Research and Quality and the Centers for Medicare and Medicaid Services. Beth serves on the American Cancer Society's Council for Extramural Research. She is the author or co-author of more than 200 peer-reviewed articles, including an article on breast cancer surgery that was named one of the 10 best papers of the decade (1999-2009) by the American Society of Breast Surgeons. Beth joined the University of Florida in 2022 as dean and Robert G. Frank Endowed Professor of the College of Public Health and Health Professions.
