

# **Blaine Warkentine MD MPH**

**Medical Advisor at innovationthrive**

Greater Philadelphia Area, PA, US

Healthcare: Innovations, Entrepreneurship, Business Models, and Growth  
Hacking

---

## **Biography**

I am passionate about products that deliver clinical excellence and have an opportunity to solve big health problems. I am energized by discussions of innovation strategy, user data, user stories, engaged and engaging users, being social, traveling, connecting with other executive leaders, solving enterprise problems, and driving adoption and economic success of a product that I am apart of. I appreciate good design, the application of design principles, A/B testing, user experience refinements, flows, charts, visualizations, and info-graphics that communicate better. I enjoy spending my personal time keeping current on a wide array of health and technology topics, filtering them for health specific domain relevance, and making innovative connections between them. I am thrilled to be on a team that allows me to attempt to predict the future, test assumptions, build IP, and execute toward a disruptive business model. <http://about.me/innovationthrive>.
