

Bradley Holt

Co-Founder & Technical Director at Found Line

Burlington, VT, US

Web Developer, Entrepreneur, Non-Profit Board Member, Free/Open Source Software Contributor, Community Facilitator, Speaker, Author

Biography

Bradley Holt is a web developer, entrepreneur, non-profit board member, free/open source software contributor, community facilitator, speaker, and an author. He is the co-founder of Found Line, a creative studio with capabilities in web development, web design, and print design. He is a Board Member at Vermont Community Access Media, a non-profit community media and technology center. He is a member of the Telecommunications Advisory Committee for the City of Burlington, Vermont where his role is to advise the City Council on matters related to Burlington Telecom, a municipally owned telecommunications services provider. He is a minor contributor of source code, bug reports, or documentation to several free/open source projects including PHP and Zend Framework. He organizes the Burlington, Vermont PHP Users Group and is a co-organizer of Vermont Code Camp. He has spoken at SXSW Interactive, OSCON, OSCON Data, the jQuery Conference, ZendCon, and CouchConf. He is the author of *Writing and Querying MapReduce Views in CouchDB* and *Scaling CouchDB*, both published by O'Reilly Media.

Availability

Keynote, Moderator, Panelist, Workshop, Host/MC, Author Appearance

Industry Expertise

Computer Software, Advertising/Marketing, Internet

Areas of Expertise

Couchdb, Domain-Driven Design, Zend Framework, PHP, Rest

Sample Talks

Learning CouchDB

CouchDB is a document-oriented database that uses JSON documents, has a RESTful HTTP API, and is queried using map/reduce views. Each of these properties alone, especially MapReduce views, may seem foreign to developers more familiar with relational databases. This tutorial will teach web developers the concepts they need to get started using CouchDB in their projects. Several CouchDB libraries are available for PHP and we will take a look at the more popular ones.

Event Appearances

CouchApps with CouchDB, JavaScript and HTML5
CouchConf NYC

Domain-Driven Design
ZendCon UnCon 2011

Learning CouchDB
ZendCon 2011

CouchApps with CouchDB & jQuery
jQuery Conference: Boston 2011

CouchApps with CouchDB, JavaScript & HTML5
OSCON 2011

Learning CouchDB
OSCON Data 2011

Big Data and APIs for PHP Developers
SXSW Interactive 2011
