

Christine Angelini

Associate Professor/Director at University of Florida

Gainesville, FL, US

Christine Angelini is the founder and director of the Center for Coastal Solutions and is an expert in coastal ecosystems and restoration.

Biography

Christine Angelini is an associate professor in environmental engineering sciences and is the founder and director of the Center for Coastal Solutions. She is an ecologist with expertise in wetland, reef and dune systems, specifically coastal resilience and restoration. Her research focuses on advancing mechanistic understanding of how species interactions moderate ecosystem resilience to climate change and influence contaminant integration into food webs.

Areas of Expertise

Water Quality, Nature-based Solutions, Coastal Engineering, Coastal Ecology, Coastal Resilience, Ecosystem Restoration
