

Christopher Carroll

Director/M.D. at University of Florida

Gainesville, FL, US

Dr. Christopher Carroll is an expert in digital communication, an active researcher, and has written international guidelines for children.

Biography

Dr. Christopher Carroll's research focuses mainly on the treatment of severe respiratory diseases (such as asthma and bronchiolitis) in children, the epidemiology of critical illness, and the use of digital communication. He is a recognized leader in digital communication and serves as deputy editor for web and multimedia for CHEST Journal, where he oversees the creation of post-publication multimedia content including podcasts, visual abstracts, and animations. Dr. Carroll also has been a long-standing proponent of the use of non-invasive therapies for children and led guideline development in this area.

Areas of Expertise

Medical Education, Epidemiology of Critical Illness, Pediatric Critical Care, Pediatrics, Respiratory Illness in Children, Digital Communication
