Biography

I love Internet marketing and the powerful technologies we have at our fingertips to dramatically multiply efficiency, diversify income, and at the same time reduce stress and create an incredible lifestyle. Marketing and CRM have taken a huge leap into the future, but the vast majority of real estate agents and brokers still don't comprehend the changes taking place or what they must do to not only survive but thrive in the years ahead. I've successfully built and manage a virtual real estate brokerage, and I've written a book describing precisely how I've done it. If agents do what I've done, they can be eminently successful. I would love to come to your town and put on a one day seminar that will change everything for agents. Contact me for speaking and seminars on the subjects of real estate marketing and Internet marketing for small businesses.
