

Colin Brenan

CEO and Founder at Consulate General of Canada (CTA Boston)

Boston, MA, US

Colin Brenan is a serial entrepreneur with expertise in research, project management, and financing of early-stage life science companies.

Biography

Colin Brenan is a serial entrepreneur and senior executive with 30 years experience in scientific research, project management, product development, strategic marketing and financing of early-stage life science companies. He is the author of 50+ peer-reviewed publications, book chapters and reports advancing the science and technology of confocal microscopy, hyper spectral imaging, microsurgical robotics and bio-microsystems and inventor on 24 US & foreign patents and 20+ pending patent applications. Colin specializes in inventing, developing, and commercializing life science technologies, and has significant experience with helping start-up companies to form and seek financing. Colin was the Founder and former chair of the Boston Chapter of the IEEE Engineering in Medicine and Biology Society (IEEE-EMBS) and a Senior Member of the IEEE. He holds Bachelor's, Master's and Doctorate degrees from McGill University in Physics, Electrical Engineering, and Biomedical engineering, respectively.
