

Glenn Morris

Professor/Director at University of Florida

Gainesville, FL, US

Dr. Glenn Morris' initiatives include work with Covid-19 epidemiology, zika, and cholera.

Biography

Dr. Glenn Morris has worked in public health and pathogen-related fields for more than 30 years, and he has had a continuing fascination with emerging pathogens. His key initiatives include work with Covid-19 epidemiology, zika, and cholera. His studies range from basic work on evolutionary genetics, epidemiology, and pathogen surveillance to the use of real-world data and bioinformatics to develop predictive mathematical models for disease transmission within populations. Morris is a professor of medicine, and he serves as the director of the Emerging Pathogens Institute. He is board-certified in both internal medicine and infectious diseases.

Areas of Expertise

Diarrheal Disease, Zika, Foodborne Illness Incidence, Cholera, Food Safety
