

Dr Hannah Bartlett

Reader, Optometry Optometry & Vision Science Research Group (OVSRG) Aston Research Centre for Healthy Ageing at Aston University

Birmingham, , GB

Dr Bartlett's research portfolio is broadly based around the role of nutrition in ocular disease.

Biography

Dr Hannah Bartlett's research portfolio is broadly based around the role of nutrition in ocular disease, but has included the development and evaluation of ophthalmic instrumentation, clinical trials, the development of hand-held technologies for people with low vision, and investigations of the psychology of nutritional behaviour. This range of research has been made possible through collaborations with engineers, computer scientists, clinicians and health psychologists and is linked by the aim to impact on the lives of those people living with ocular diseases.

Areas of Expertise

Clinical Education, Ophthalmic Instrumentation, Low Vision, Ocular Nutrition, Macular Pigment, Ocular Physiology

Affiliations

College of Optometrists : Member, General Optical Council : Member, Higher Education Academy : Member, American Academy of Optometry : Fellow, Higher Education Academy : Senior Fellow, Higher Education Academy : Principal Fellow

Education

Aston University
