

Dr. Mine Durusu-Tanrioever

Professor of Internal Medicine at Hacettepe University

Ankara, , TR

Prof Mine Durusu Tanrioever works closely with regional and global scientific community on adult vaccination, influenza and COVID-19.

Biography

She graduated from Hacettepe University Faculty of Medicine in 2000 and finished her residency training in internal medicine in 2005 in the same university. She has been serving as the consultant of the Acute Care Unit for several years, mainly admitting patients from the emergency department with acute decompensation of chronic diseases; lower respiratory tract infections, organ failure and acute, undiagnosed conditions. Dr. Mine Durusu Tanrioever worked as the Co-Chief of Hacettepe University Oncology Hospital and the Quality Coordinator of Hacettepe University Hospitals, a Joint Commission International accredited, 1200-bed academic medical center between 2016-2020. Her research area mainly consists of adult vaccination, influenza, quality improvement and patient safety. She has been involved in the Global Influenza Hospital Surveillance Network project as an investigator and site coordinator since 2012 and participated as a subinvestigator in the phase 3 clinical trials of COVID-19 vaccines available in Turkey. Recently, she has been appointed as the primary investigator of the phase 3 clinical trial of TURKOVAC, an inactivated COVID-19 vaccine. She is the author of more than 50 peer-reviewed articles. Representing the Turkish Society of Internal Medicine, she is a member of the National Adult Immunization Guideline Task Force and Medical Specialty Council Curriculum Preparation Task Force. She is the founder and the first chair of the Young Internists Working Group and honorary fellow of the European Federation of Internal Medicine (EFIM). She is a member of the Quality and Professional Issues and the Adult Vaccination (ADVICE) Working Groups of EFIM. Dr. Durusu Tanrioever is currently the Secretary of the Middle East, Eurasia and Africa Influenza Stakeholders Network and the coordinator of the VACCiMENA-HCP project. She believes that we are what we eat and inhale, and a healthy life begins with healthy food and being a part of the nature. Her main area of interest outside her academic activities is farming and spending time in her edible balcony garden. She is married with two children.

Industry Expertise

Research, Education/Learning

Areas of Expertise

Acute Care, Quality Improvement, Vaccines 4 Life Program, Influenza, Vaccination, Adult Vaccination, Patient Safety, COVID19 Vaccines

Affiliations

Hacettepe University Hospital : Medical Profession Education Committee Member, Hacettepe University Hospital : Patient Safety Committee Member, Professor of Internal Medicine, Hacettepe University Faculty of Medicine, Co-director, Hacettepe University Oncology Hospital, Quality Coordinator, Hacettepe University Hospitals, Board Member, Hacettepe University Vaccine Institute, Member, European Federation of Internal Medicine, Professional Issues and Quality of Care Working Group, Member, European Federation of Internal Medicine, Adult Vaccination Campaign in Europe Working Group, Secretary, Middle East, Eurasia And Africa Influenza Stakeholders Network
