

Duc Tran

Lecturer in Electrical and Computer Engineering at Loyola Marymount University

Los Angeles, CA, US

Seaver College of Science and Engineering

Biography

Duc Tran received his bachelor's degree in electrical engineering from Ho Chi Minh International University (HCMIU) in 2009, his master's degree in electrical engineering from California State University Long Beach in 2013, and his Ph.D. in Engineering and Industrial Applied Mathematics from Claremont Graduate University in 2019. His research is on the theory and application of the Internet of things, and distributed optimization and control for cyber physical systems such as smart grids and smart buildings. He is also interested in applying digital signal processing techniques for detecting faults in power systems.

Areas of Expertise

Smart Grid and Smart Building, Internet of Things (IoT), Digital Signal Processing

Education

International University

Bachelor of Science Electrical Engineering

California State University, Long Beach

Master of Science Electrical Engineering

California State University, Long Beach / Claremont Graduate University

Ph.D. Engineering & Industrial Applied Math
