Ed has his B.S. in Microbiology and B.S. and M.S. in Animal Science from Colorado State University and Ph.D. in Dairy Science minoring in Artificial Intelligence from University of Wisconsin-Madison.

Availability

Keynote, Moderator, Panelist, Workshop

Industry Expertise

Cleantech, Food Production, Agriculture and Farming

Areas of Expertise

Aeroponics, Led Lighting as It Relates to Plants

Sample Talks

How plants see light

Plants use light directly for growth. Light also impacts chemical properties of plants. Finally current lighting options for plants are fraught with poor characterization and design.
