

# **Edward Mondor**

**Associate Professor at Georgia Southern University**

Statesboro, GA, US

Ed Mondor specializes in Insect Ecology and Forensic Entomology.

---

## **Biography**

Ed Mondor was born and raised in Brandon, MB, Canada. He attended his hometown university, Brandon University, where he received a BSc in Psychology with a minor in Botany (1993). Ed then attended the University of Alberta where he received his MSc in Zoology (1996), working on tachinid parasitoids of the forest tent caterpillar. He received his PhD from Simon Fraser University (2001), with a project focusing on the evolution of alarm signaling behavior in aphids. He completed postdocs at the University of Calgary (2003) and the University of Wisconsin-Madison (2005) and was employed as a Junior Entomologist with the University of Hawaii (2005-2006), prior to arriving at Georgia Southern University (2006 - Present). Ed now retains the rank of Associate Professor in the Department of Biology at Georgia Southern. Along with teaching three courses every semester, he has almost 40 peer-reviewed publications in journals such as Ethology, Functional Ecology, Global Change Biology, Journal of Evolutionary Biology, Journal of Insect Behavior, and PLoS One, and has had his research featured in the Editor's Choice section of Science Magazine. In addition to his studies on insect behavior, ecology, and evolution, he is the only practicing Forensic Entomologist in Georgia. He has assisted various law enforcement agencies (e.g., Bulloch County Sheriff's Office, Georgia State Patrol, Savannah-Chatham Metro Police Homicide Unit) with determining the "time of death" of human decedents.
