

Eric Fortune

Associate Professor at New Jersey Institute of Technology

Newark, NJ, US

Eric Fortune specializes in evolutionary biology, specifically the mechanisms and evolution of animal behavior.

Biography

Eric Fortune is an associate professor who specializes in evolutionary biology, specifically the mechanisms and evolution of animal behavior. Fortune's published research spans from identifying neurophysiological signals in cooperative singing in Wrens, to analyzing electric-based communication and behavior in cavefish. His research has been profiled by CNN, NPR, The New York Times and others.

Areas of Expertise

Locomotion, Birds, Biology, Neuroscience, Evolutionary Biology, Sensory and Motor Systems, Mechanisms of Animal Behavior, Neurons

Education

University of Chicago

Ph.D. Biology

University of Chicago

B.S.
