

Eric Morgan, Ph.D.

Assistant Professor, Biology at Farmingdale State College

Farmingdale, NY, US

Dr. Eric Morgan is an Assistant Professor of Biology at Farmingdale State College.

Biography

Dr. Morgan's research is in several areas including the ecology of invasive plant species throughout our region, and the plant - insect interactions associated with these invaders. Several small research projects focus upon local forest ecology, particularly on the succession of urban NYC forests. He also does extensive research on tropical forests, particularly those found in Amazonian Peru and the Caribbean.

Availability

Keynote, Moderator, Panelist, Workshop, Host/MC

Industry Expertise

Education/Learning, Research

Areas of Expertise

Ecology of Invasive Plant Species, Plant - Insect Interactions, Urban Forests, Tropical Forests, Botany, Plant Systematics, Ecology, Forest Ecology

Affiliations

President, Torrey Botanical Society , Botanical Society of America

Education

City University of New York

Ph.D. Biology

City University of New York

M.Ph. Biology

City University of New York

M.A. Biology
