

Errol Soriano

Managing Director at Campbell Valuation Partners Limited

Toronto, ON, CA

Dot Your I's And Cross Your T's: Call in the top talent to get to the bottom of your business valuation and financial loss analysis needs

Errol Soriano graduated from the University of Western Ontario's Ivey School of Business Administration in 1987. He obtained his CA designation in 1989 and his CBV designation in 1993. Since 1991, Errol's practice has been dedicated exclusively to the areas of business valuation and the quantification of financial loss. Errol's clients range in size from relatively small privately held businesses to multi-national Fortune 500 companies. Errol's work encompasses a broad spectrum of complex matters involving product liability, class actions, tax disputes, transaction disputes, franchise disputes, shareholder disputes, breach of contract, breach of fiduciary duty, forensic reviews, insurance claims (including professional negligence), and international trade and investment disputes. Errol has provided services to clients in Canada, the United States, Europe, South America and the Middle East . He has qualified as an expert in business valuation and loss quantification over 25 times in various Canadian Courts and in international arbitration proceedings in the United States. He has also been appointed Inspector pursuant to the Ontario Business Corporation Act to review accounting and business records. In addition to his broad, practical experience, Errol is the author of an authoritative text on the quantification of financial loss (and co-author of a second text), and has lectured extensively to professional interest groups in Canada, the United States, Europe and the Middle East.

Damages, New Trends and Directions

Awards of damages, either by judgment or out-of-court settlements can vary widely in the multiple jurisdictions across Canada. This discussion will address some of the new trends and review recent decisions of national interest. What strategies can we learn about the assessment of economic and inter-dependencies losses in medical malpractice and personal injury cases? What do the top litigators see as the main trends for damage pecuniary and non-pecuniary awards in these cases?
