

# **Fumiko Hoeft**

**Professor and Campus Director, UConn Waterbury at University of Connecticut**  
Storrs, CT, US

Dr. Hoeft is a neurophysiologist, as well as a systems and developmental cognitive neuroscientist.

---

## **Biography**

Dr. Hoeft is a neurophysiologist, as well as a systems and developmental cognitive neuroscientist with theoretical interests in the neurobiological mechanisms underlying individual differences in brain maturational processes, acquisition of skills such as literacy and how they interact. Her other areas of interest include brain development, neuroimaging, individual differences, literacy acquisition, and dyslexia. She is also the lab director of the Laboratory for Learning Engineering and Neural Systems (brainLENS), a collaboration between researchers at UConn and the University of California, San Francisco; and the director of the UConn Waterbury campus.

---

## **Areas of Expertise**

Neuroimaging, Scientific Writing, Neuroscience, Science, Life Sciences

---

## **Education**

**Keio University**  
PhD Neuroscience/Neurophysiology

**Keio University School of Medicine**  
MD
