

Gregory Richardson

Network Security Lead at 1337 Networks, Inc.

Charlotte, North Carolina Area, NC, US

Gregory Richardson: Cyber Security Expert

Biography

Gregory Richardson is the Caribbean's leading expert on cyber security and is a sought-after conference speaker and adviser to Caribbean governments and institutions. In 2012, he was a panelist for the Organisation of American States' (OAS) workshop on Cyber Security and Cyber Crime in the Caribbean, where he discussed the threats and trends in the region. His conversation-style presentations have allowed him to speak in conferences and seminars from Columbia to Montserrat. He continues to advocate for increased internet governance across the region and also provides practical steps that small businesses as well as governments can make to protect their digital assets. The entrepreneur has been a steady presence at the Caribbean Telecommunication's Union (CTU) ICT Roadshows and CaribNOG forums around the Caribbean since 2010. He enjoys sharing his passion and lessons learned from running his own companies to new business owners and perspective entrepreneurs. Now based in the USA, Gregory advises financial institutions and governments on establishing secure cyber networks and designing legislation to thwart cyber criminals.

Availability

Keynote, Moderator, Panelist, Workshop, Corporate Training

Industry Expertise

Computer/Network Security, Computer Networking

Areas of Expertise

Web Development, Security, Network Security

Sample Talks

Threats and trends of cyber security in the Caribbean

Using real world examples Gregory builds a case for why Caribbean governments and institutions can no longer pretend cyber crime and heightened cyber security are not a priority. *Case studies from Government, banking, and telecommunications are used.
