

# **Haesuk Park**

**Associate Professor at University of Florida**

Gainesville, FL, US

Haesuk Park studies economic and health outcomes of medications and pharmaceutical care services and policy regarding pharmaceutical use.

---

## **Biography**

Haesuk Park is an associate professor in the Department of Pharmaceutical Outcomes and Policy in the College of Pharmacy. Her research centers on economic and health outcomes studies of medications and pharmaceutical care services as well as policy associated with the use of pharmaceuticals. She is passionate about investigating questions related to health policy in vulnerable populations and, particularly, how a policy affects access to care, the quality and cost of health care, and ultimately health outcomes. In recent years, the clinical focus of Haesuk's research has centered on patients with hepatitis C virus (HCV) infection, a research area with growing intensity and breadth due to the increasing awareness of the disease burden and the continuing development of new treatments.

---
