## **Sample Talks**

### **Cross-cultural Communication**

Communication is hard enough when you talk to people from your own culture, using a lingo familiar to you. But what happens when we cross cultural boundaries? Which are the pitfalls? What can we do to prepare? In this story I dig deep into my treasure chest of practical examples from my many trips around the world, using real life examples to illustrate the challenges and opportunities. Available in English, German & Scandinavian.

## **Communication Skills**

We communicate all the time, it is one of humanity's most intrinsic qualities. But how do we do it? What can go wrong (and it does) and how? In this story I'll talk about communication skills basics, from gestures to body language and perception to help you understand just what we can do to become more aware (and thus more successful) when we communicate to others, be it orally, in writing or otherwise. Available in English, German & Scandinavian.

## **Common Sense**

Based on the bestselling book 'Common Sense - in Business & Life', Hans will take you on a journey through this often unappreciated and often ridiculed sense. Some criticize common sense as trivial and even dangerous, but used properly and with experience, it is a valuable tool. Using examples and real life stories, Hans will take you on a journey you won't forget easily... Available in English, German & Scandinavian.

## **People Management across cultures**

Are you managing people across cultures? In different time zones? Are you doing so remotely? In this story I'll take you on a journey to learn more about the intricacies of people management, dealing with different cultures, remote people management and what we can do to make it work better, as well as the pitfall we can expect and how to avoid them. Available in English, German & Scandinavian.
