

Harpreet Bajaj

Co-Chair, Marketing and Communication, Professional Section National Executive at Diabetes Canada

Brampton, ON, CA

A community-based adult endocrinologist practicing full-time in Brampton, Ontario

Harpreet Singh Bajaj is a community Endocrinologist in Brampton and a Research Associate at Leadership Sinai Centre for Diabetes at Mount Sinai Hospital in Toronto. Dr. Bajaj is an adjunct lecturer at McMaster University and University of Western Ontario. He is the founding chairman of STOP Diabetes Foundation, a registered charitable foundation, working to reduce the burden of diabetes in Peel region of Ontario. He serves as the co-chair of the Communications and Marketing portfolio within Diabetes Canada's professional section national executive as well as a national consultant editor for Canadian Journal for Diabetes. Dr. Bajaj has pioneered "real-life" practical approaches to research in diabetes, obesity and cardiovascular risk assessment. He has co-authored publications in key medical journals such as Diabetes Care, Diabetes Technology and Therapeutics, Nature Reviews, Nature Publishing Group's Obesity journal, Journal of American Medical Association (JAMA) and Canadian Journal of Diabetes (CJD). He has an interest in ethnicity-based research with a focus on diabetes and cardiometabolic diseases in South Asian community. He has developed and presented numerous lectures to a variety of audiences (specialists, family physicians, diabetes educators, pharmacists, public) on various topics related to diabetes. He hosts a weekly TV show called "Your Health" on South-Asian Canadian Channel Y to educate viewers about health and lifestyle. Dr. Bajaj's medical education was at Maulana Azad Medical College in New Delhi, India. He completed his Endocrinology fellowship at the Cleveland Clinic in Ohio, USA and a Masters of Public Health (Epidemiology) at State University of New York in Albany, USA. He has been living in Canada, with his family and parents since 2009. By way of his work in the clinic setting, public awareness efforts, CME lectures to specialist and family practice colleagues as well as research activities, Dr. Bajaj is committed to improving the provision of diabetes related health care in Canada.
