## **Selling Your Company**

This presentation addresses how business owners and executives can maximize shareholder value in the sale of their company. It covers key initiatives in pre-sale preparation through to finding the right buyers, valuation and pricing, structuring the deal, negotiating strategies and closing.

## **Private Equity Financing**

This presentation highlights how private equity financing works and what business owners and executives can do to attract the right private equity partner, whether for expansion capital, restructuring or buyouts.

## **Management Buyouts**

This presentation focuses on how management buyouts (MBO's) work and the keys to getting an MBO done. It features the MBO Value Matrix, which illustrates the interplay between all the players involved and how to avoid the pitfalls.

### **Building Value in Your Company**

This presentation is based on Howard's book, entitled Building Value in Your Company. Howard discusses how cash flow, risk profile and invested capital are the key drivers in measuring, creating and realizing shareholder value. In addition, Howard demonstrates how creating shareholder value stems from developing a competitive advantage that generates intangible value within a company, whether large or small, public or private.

### **Strategic Acquisitions**

This presentation addresses what buyers should do to ensure that the acquisitions they undertake will be accretive to shareholder value. It addresses key topics such as finding acquisition candidates, due diligence, deal structuring, negotiation and integration. It also discusses the common pitfalls in acquisitions and how buyers can avoid them.
