

# **Iftach (Ian) Amit**

**VP Consulting at Security & Innovation**

Tel Aviv, , IL

Information Security, Hacking and Business

---

## **Biography**

Seasoned manager in the security and software industry with vast experience in a myriad areas of software (from enterprise security, through retail oriented, to end user software and large back-end systems). Highly experienced in leading marketing opportunities, and translating technical innovation into marketable concepts that increase sales and exposure. Information Security expert with vast experience ranging from low level technical expertise and up to corporate security policy, regulatory compliance and strategy. BlackHat and DefCon speaker, with vast experience in public speaking and private customer focused seminars. Linux & Unix expertise including large scale deployments in datacenter, Enterprise database management and implementation (Oracle) on Unix & Linux systems. Networking in a secure environment. My goals are to keep leading innovation - both from the technology side, as well as from the sales and marketing aspects. Increasing revenues and general value through these activities are my expertise and passion.

---

## **Affiliations**

DefCon Speakers, BlackHat Speakers, NYLUG, Board Member - CSA Israel, DC9723, IDC Alumni

---

## **Sample Talks**

## **Cyber[Crime|War] - Connecting the Dots**

In this talk we will explore the uncharted waters between CyberCrime and CyberWarfare, while mapping out the key players (mostly on the state side) and how past events can be linked to the use of syndicated CyberCrime organization when carrying out attacks on the opposition. We will discuss the connections between standard warfare (kinetic) and how modern campaigns use cyber security to its advantage and as an integral part of it.
