

Jasna Jankovic, Ph.D.

Assistant Professor of Materials Science & Engineering at University of Connecticut
Storrs, CT, US

Prof. Jasna Jankovic is an expert in the development of advanced imaging and spectroscopy, fuel cells and industrial collaborations.

Biography

Jasna Jankovic's research involves the development and application of advanced imaging and spectroscopy techniques, 3D material design and imaging, fuel cells, advanced nanomaterials for clean energy, electrospinning for clean energy applications, templating nature designs for application in clean energy Industrial collaborations.

Areas of Expertise

Industrial Collaborations, Fuel Cells, Development and application of advanced imaging and spectroscopy techniques, 3D material design and imaging, Advanced Nanomaterials for Clean Energy

Education

University of British Columbia
Ph.D.
