

Jason Ferrell

Director/Professor at University of Florida

Gainesville, FL, US

Jason Ferrell has expertise in invasive plant management, pesticide safety and fate of pesticides in the environment.

Biography

Jason Ferrell serves as the director of the UF/IFAS Center for Aquatic and Invasive Plants. As the center director, he leads a multidisciplinary group of faculty and staff whose mission is to develop and disseminate strategies for addressing the impact of invasive plants. In addition to this role, Jason also serves as the director of the Pesticide Information Office where he works to ensure that pesticide applicators are trained and licensed in a relevant and timely manner. As a faculty member, Jason has expertise in invasive plant management, pesticide safety and fate of pesticides in the environment.
