

Jatinder Lamba

Professor/Associate Dean at University of Florida

Gainesville, FL, US

Jatinder Lamba focuses on genomic/epigenomic markers predictive of therapeutic outcome in cancer patients.

Biography

Jatinder Lamba's research is focused on identification, characterization and clinical validation of genomic/epigenomic markers predictive of therapeutic outcome in cancer patients. This research spans from preclinical basic research comprising the discovery phase utilizing cell line model systems to translational/clinical phase in patient populations from multi-institute clinical trials. The long-term goal of her research is to move pharmacogenetic testing into the clinical setting to improve safety and efficacy of drug therapy.

Areas of Expertise

Acute Myeloid Leukemia, Pharmacogenomics, Pharmacogenetics, Precision Medicine
