

Jayanta Gupta, M.D., Ph.D.

Expert in epidemiology at Florida Gulf Coast University

Fort Myers, FL, US

Jayanta Gupta explores the genetic and environmental risk factors behind chronic health conditions, including allergic and kidney diseases.

Biography

Dr. Jayanta Gupta is an assistant professor and director of the public health program at Florida Gulf Coast University. He studies diseases and has focused his efforts on those that are chronic and are influenced by both genetic and environmental/lifestyle risk factors. Gupta is part of a study looking at genetics of atopic dermatitis, an allergic disease, in African-Americans. He is also studying the impact of cyanobacteria toxins on human health.

Areas of Expertise
