Jed McCaleb

CTO and Cofounder at Stellar Develoment Foundation

San Francisco, CA, US

Recognizing that the world?s financial infrastructure is broken and that too many people are left without resources, I cofounded Stellar.org

Biography

Jed McCaleb is the cofounder and CTO of Stellar.org. Jed believes in consciously leveraging technology to reduce inefficiency and improve the human condition. He created eDonkey, one of the largest file-sharing networks of its time, as well as Mt. Gox, the first Bitcoin exchange. In 2011, Jed founded Ripple. Recognizing that the world?s financial infrastructure is broken and that too many people are left without resources, he cofounded Stellar Development Foundation in 2014. Jed is also an advisor to MIRI, which researches artificial intelligence for positive impact.
