

Jennifer Zettler

Professor at Georgia Southern University

Statesboro, GA, US

Dr. Zettler investigates the ecological effects of red imported fire ants on native invertebrates and plants

Biography

Dr. Zettler investigates the ecological effects of red imported fire ants on native invertebrates and plants. Along with Dr. Brofft-Bailey, she is determining if fire ant mounds serve as "hot spots" for nitrification since they are enriched with oxygen and ammonia, conditions which should favor the growth of ammonia oxidizing Bacteria and Archaea.?

Areas of Expertise

Invasive Species, Entomology, Zoology, Ecology

Education

Clemson University

Ph.D. Zoology

Clemson University

M.S. Entomology
