What is Normal?

Although these stories is illustrated through experiences around being a person with a disability, it is a story of ability, acceptance and success. These are the new normal existence. So what is normal?

Education

Derryfield

Testimonials

Mark Egan

"Our Ability helped our staff team see differences in a new and meaningful way. John and Doug's storytelling is powerful. While learning about them, we really learned about ourselves. Their comfortable approach made it easier to openly discuss what could have been uncomfortable topics. I think all of our team left the session with new perspectives on those that are different from themselves and gained a greater appreciation of how they can better embrace diversity."

Douglas Wenners

"John is a great human being. He is as caring and warm as he is courageous and persistent. A strong motivator, John has but one goal in sharing his life story as a congenital amputee - to dispense hope and inspiration to those who can use it most."
