---

## **Biography**

Dr. Katharina Busl is the chief of the Division of Neurocritical Care, professor, and associate chair of clinical operations in the Department of Neurology. She is an internationally recognized expert in neurocritical care. She has co-authored clinical guidelines for the management of subarachnoid hemorrhage, neuroprognostication guidelines for neurocritical diseases and numerous manuscripts relevant to clinical neurocritical care. Clinical interests include subarachnoid hemorrhage, neuroprognostication, her research interests center around care innovations and quality of care in neurocritical care. Specific interests include treatment of headaches in the NeuroICU, neuroprognostication and medical complications of neurocritical disease. Dr. Busl is the lead PI for BLOCK-SAH, an NIH-funded, multicenter trial to investigate pterygopalatine fossa nerve blocks for post-subarachnoid hemorrhage headaches.

---

## **Areas of Expertise**

Subarachnoid Hemorrhage, Brain Death, Neurocritical Care, Acute Brain Injury
