Secrets of a Great Career Revealed

Life is too short not to have a career that you don't absolutely love! What is the difference between those talented and capable people who seem to effortlessly reach their professional goals and those equally talented and capable people who lose their way or lose their passion. It prompted us to ask the question; ? what makes the first group so successful? Is it education, experience, raw talent, personality, luck? Testimonials

Olivia Romano

Kim delivered an exceptional plenary session at our annual Risk Retreat conference this year. The feedback from our delegates was exceptional with Kim's session being one of the highlights of the entire conference. Her presentation was extremely engaging, informative, and practical with a suite of tools the advisers could take back to their businesses to implement right away which is exactly the outcome we were looking for. Not only did she engage the audience, she has been wonderful to work with and completely tailored her knowledge and research to meet the needs of our clients.

Natalie Williams

Kim has chaired conferences for me on several occasions. Each time, Kim not only brought expert knowledge to the sessions, she was engaging and dynamic on stage and really set the tone for an excellent event. Such qualities are hard to find! I wouldn't hesitate to recommend Kim as a speaker and chair and look forward to involving her in the future SSON activities.

Mel Kleiman

"Over the last 20+ years I have heard 100's of other speakers speak on attracting and retaining staff. Kim was one of the very best I have ever heard. She offers great insight in to today's challenges facing recruiters, hiring managers, and applicants. More importantly she offers tools and techniques to help overcome those challenges in a most professional and entertaining way. I am glad that she had to follow me of the program rather than me having to follow her at the HR Summit in Singapore."

Bradley Busch

?Kim was a fantastic keynote speaker at itSMF Australia's LEADit 12 conference. Throughout the engagement she was professional, she listened and engaged with us as a customer. The message she brought to us was spot on! Our audience really resonated with her 5C's for Employee Engagement and Retention. The talk was engaging, polished and truly professionally delivered. In a large auditorium she filled the room with her presence and invited us into her talk. All eyes were on her. I really recommend Kim as a keynote speaker and hope to have the opportunity to work her again.?

Elise Barter

?This program is helping us develop world class and consistent managerial skills across our divisions. Although the program gives you a step by step framework and a number of different exercises you can use with your staff, what we like about it is that it also allows managers the flexibility to use the tools as they wish, in whatever manner works best for them..." "...I am pleased to report a definite improvement in the conversations between managers and staff - with many managers taking advantage of these tools in each conversation.?
