Kimberly Sloman, Ph.D., BCBA-D

Associate Professor | School of Behavior Analysis at Florida Tech

Melbourne, FL, US

Dr. Sloman?s research interests include best practices for treating individuals with autism spectrum disorder (ASD).

About

Dr. Sloman?s research interests include best practices for treating individuals with autism spectrum disorder (ASD). This includes assessment and treatment of problem behavior including stereotypy, individualized skill assessments and generalization of treatment effects. Dr. Sloman joined the faculty at Florida Tech's renowned Scott Center for Autism Treatment in 2018. She previously served as a clinical associate professor at Rutgers, the state university of New Jersey, and associate director of behavioral and research services at the Douglass Developmental Disabilities Center. She has worked with individuals with developmental disabilities and autism spectrum disorder (ASD) since 2000. She has authored several research articles, presented at state and national conferences, and co-authored several chapters on best practices for individuals with ASD. Dr. Sloman grew up in Land O' Lakes, Florida, and attended the University of Florida. She resides in Indialantic with her husband, Glenn, son, Sam, and dogs Maisy and Molly.
