

Kostadin Damevski, Ph.D.

Associate Professor, Graduate Program Director at VCU College of Engineering

Richmond, VA, US

Interested in software engineering and in the use of natural language processing techniques to improve software maintenance and evolution.

Biography

Dr. Kostadin Damevski is an Associate Professor in the Department of Computer Science at Virginia Commonwealth University School of Engineering. His current research interests are centered around software maintenance and evolution, applied to domains such as mobile apps, high-performance computing, and industrial software systems. His research has been supported by U.S. government agencies, e.g., NSF, DARPA, DOE as well as private industry, e.g., Google, ABB. Damevski leads the Software Improvement (SWIM) Lab at VCU.

Industry Expertise

Computer Software, Research, Education/Learning

Areas of Expertise

Software Engineering, Software Maintenance, Recommendation Systems, Natural Language Processing

Affiliations

Associate Editor, IEEE Software

Education

University of Utah

Ph.D. Computer Science
