

Kuldeep Neote

Senior Director at Consulate General of Canada (CTA Boston)

Boston, MA, US

Kuldeep focuses primarily on the areas of Oncology and Immunology.

Biography

Kuldeep is Senior Director of New Ventures at the Johnson & Johnson Innovation, Boston. He focuses primarily on the areas of Oncology and Immunology. A trained molecular biologist with an extensive background in drug discovery, Kuldeep has been focused on the areas of Immunology, Inflammation and Oncology and has a passion for implementing cutting edge scientific discoveries into practical drug discovery programs. Formerly, Kuldeep was Research Advisor/Director in Global External R&D at Eli Lilly. Prior to Eli Lilly, he was a Discovery Scientist at Pfizer, where he initiated the chemokine receptor drug discovery platform that led to the discovery and further development of several clinical candidates. Earlier in his career, Kuldeep also cloned one of the first chemokine receptors while at Genentech. Kuldeep earned his BSc. in Microbial and Cellular Biology at the University of Calgary, and a PhD in Human and Molecule Genetics at the University of Toronto, where he was a major contributor in the understanding of the molecular basis of lysosomal storage diseases, in particular Tay Sachs and Sandhoff's disease.

Industry Expertise

Research, VC and Private Equity

Areas of Expertise

Drug Discovery, Immunology, Oncology, Molecular Biology

Education

University of Toronto

Ph.D. Molecular Genetics

University of Calgary

B.Sc. Microbial and Cellular Biology
