

Lizheng Shi

Endowed Regents Professor and vice chair of health policy and management at Tulane University

New Orleans , LA, US

Lizheng Shi is an expert in health technology assessment, economics and policy, and for COVID-19.

Biography

Lizheng Shi trained as a pharmacist (BS in pharmacy 1992, MS in pharmacy 1994) through Shanghai Medical University and Peking Union Medical College, respectively. He has also trained as an economist (MA in economics 1998, PhD in pharmaceutical economics and policy 2001) through the University of Southern California. Shi is the Regents professor and vice chair in the department of global health policy and management, and he serves as clinical faculty in departments of medicine (endocrinology) and psychiatry. Shi is the director for Health Systems Analytics Research Center (HSARC). He is a member of editorial board for Pharmacoeconomics. Shi's current research interest includes health technology assessment and health care quality, access and economics. He is also interested in pharmacoepidemiology with a focus on safety issues in medication treatment and health informatics to improve quality and safety of patient care. Shi has served as principal investigators (PI) and co-PI for more than 30 research grants and contracts from NIH, AHRQ, PCORI, and other public and private funding sources.
