Testimonials

Michael Siggins

"Manny is often our go-to resource for IT channel and business expertise. Whether he is serving as an expert source for an article or on stage at one of our live events, we know that he will deliver expert opinion in an engaging, entertaining and a thoroughly credible way. Manny makes our job easy!"

Bob Huth

"I have known Manuel W. Lloyd for almost twenty years and have used him as a Technology counselor, for all of those years. My company has always found itself ahead of the curve and ahead of my competitors with Manuel's guidance and recommendations. I have found them to have the highest regard for integrity, ethical dealings, and morality. I highly recommend Manny as an associate or business partner. His company is very capable and highly knowledgeable. They provide expert advice, risk management and planning, they manage the IT needs of our staff, they secure our systems 24x7x365, & provide mitigation in all other areas of our critical IT needs. My business has over 300 computers in operation at any given time, day or night and weekends and Manuel W. Lloyd Consulting® keeps it running. Manuel "Manny" is a rare individual and I, having had dealings with him, his wife of 20 years, their 8 beautiful children, and his company for some 20 years, without hesitation, highly recommend them."

Chris Weber

"If you want someone who understands technology and its end-to-end place in business, Manuel's your guy. He's always had three traits that are rarely found together in any one person - passion, vision, and sincerity. Manuel takes good care of his employees, and naturally makes you feel challenged and empowered. As a client, Manuel's attention always puts you first, he listens, and ensures you're comfortable and in-the-know about every important decision. Excellent manager of things people and process.?"

Jon T. Vincent

"Please be advised that Manny Lloyd has provided services for my firm for many years. We are very happy with his services and recommend him to others. Manny is very knowledgeable about technology hardware, networks, web pages and programming. I consider him an expert in his field and a man of upmost character.?"

Spence Hackney

?We hired Manny to review our email architecture? and make some recommendations for improving performance. He had a deep level of understanding of the subject matter and was also able to see the big picture of how it integrated with our overall business strategy. He was frank with his recommendations and helped guide us down the path to the right decision! We'd certainly use him again!?

Steve Kelley

?Manuel W. Lloyd Consulting® helped our firm with Microsoft Lync Enterprise deployment technology earlier this year. Our requirements were a bit out of the ordinary and we have been very happy with their services and have retained them for an ongoing engagement. They are very capable with all the practical issues of making production applications work and have provided us with some key insights. I would consider them experts in this field. They have also been professional and considerate of budget in all their dealings with Arganteal.?
