

Margaret Rubega, Ph.D.

Professor of Ecology and Evolutionary Behavior at University of Connecticut

Storrs, CT, US

Professor Rubega is an expert in the functional ecology of feeding in birds and the anatomy, and biomechanics, performance of wild birds.

Biography

Professor Rubega is an expert on monk parakeets; chimney swifts; hummingbirds; use of social media in science education. She researches the biomechanics of foraging and feeding, including the feeding by hummingbirds and other nectarivores.

Areas of Expertise

Social Media in Science, Avian Conservation, Anatomy of Birds, Evolutionary Biology, Ecology, Functional Ecology of Feeding in Birds, Biomechanics of Birds, Hummingbirds

Affiliations

Center for Environmental Science and Engineering, Center for Conservation and Biodiversity

Education

University of California - Irvine

Ph.D. Biology

Southern Connecticut State University

B.S. Biology
