## **Biography**

I am a born Entrepreneur, Author, Consciousness and Awareness Trainer, Coach, Visionary and Artist. One of my books on Cosmic and Universal Laws was an Amazon bestseller in 2011. I am multi-cultural, multi-lingual and multi faceted because of my background. I was born and raised in the Middle East, liberal Christian parents, French education, and later a Swiss and American education. I came to the west London/Zurich/New York when I was 20. I lived and traveled all over the western and far eastern continents extensively.I was active in the international business world for over 20 years, was based in the US and in Europe. In 1990 I decided to leave the business world behind me to complete my studies in Leadership and I received my Ph.D. in the Science of Metaphysics and focused on helping people with self development and consciousness awareness. My mission is to empower people through consciousness and awareness training, as we go through the cosmic and earth evolutionary shift in the 21st century, when the human family is collectively challenged to de-condition themselves from everything that is familiar and known and to re-discover the inner worlds as many dimensions merge and secret worlds are finally exposed.I believe that we can all without exception with the right training surpass our limitations to become fully empowered beings. I am based presently near Geneva in Switzerland. I am an informal speaker and with my talks I would like to introduce you to new horizons and explain how you can benefit personally and professionally. Everyone on all levels can benefit from my talks.
