

Marisa Domino, PhD

Professor in the Department of Health Policy and Management, Gillings School of Public Health and Director of the Program on Mental Health and Substance Abuse Systems and Services at the Cecil G Sheps Center for Health Services Research at UNC-Chapel Hill
Chapel Hill, NC, US

Marisa Domino is a Professor the Gillings School of Public Health whose research focuses on the economics of mental health.

Marisa Elena Domino, PhD, is a professor in the Department of Health Policy and Management in the Gillings School of Global Public Health; she is also director of the Program on Mental Health and Substance Abuse Systems and Services Research at the Cecil G. Sheps Center for Health Services Research. Her research interests include the economics of mental health, agency relationships among physicians, patients and insurers, the diffusion of new technologies and the public provision of health care and health insurance to low-income populations. She is deeply interested in vulnerable populations and she has created a research agenda throughout her career which examines the efficiency of health care policies in low income and disabled populations. She has substantial expertise in applied econometric analyses and has worked extensively on large administrative databases from a variety of health insurance programs. She has considerable experience extracting measures of medication use and adherence, quality of care, utilization and costs from a large variety of data sources. Dr. Domino's work has focused on the effects of Medicaid program design on a variety of populations and outcomes, especially related to behavioral health and chronic illness.

Medical Homes, Health Care Expenditures, Mental Health and Criminal Justice, Medicaid Policy, Persons with multiple chronic conditions, Mental Health Economics and Policy, Health Economics, Mental Health and Opioids, Applied Microeconomics, Innovative Health Care Payment Models, Accountable Care Organizations
