

Mary Lusk

Assistant Professor at University of Florida

Balm, FL, US

Mary Lusk focuses her research on well water and septic system.

Biography

Mary Lusk's research focuses on developing research-based and stakeholder relevant programs that help Floridians enhance and protect our state's water quality, quantity and supply. She works to ensure that Florida residents, homeowners, urban landscaper managers, city and county officials, and others have the knowledge they need to make sound decisions about water use and water supply management. She is an assistant professor of soil and water sciences in the Institute of Food and Agriculture Sciences.

Areas of Expertise

Urban Water Quality, Stormwater, and Low Impact Development for Urban Areas, Onsite Wastewater Treatment (Septic Systems), Urban Fertilizer Ordinances, Pathogens in Water Bodies, Urban Agriculture
