Sample Talks

Crowdfund Investing: Panel Discussion

This discussion was held at the largest startup conference in the U.S. Moderated by Baker-Donnelson, issues discussed among panel members included fears associated with fraud in crowdfund investing, the SEC's delays of crowdfund investing's industry regulations, and how entrepreneurs and investors alike will be able to take advantage of the rapidly emerging industry.

Education

Ohio University

Communication Studies Business Communications, Sales

Accomplishments

Founder, President of StandOffer.com

Successfully founded and created Stand Offer, crowdfunding's first searchable database to find the most relevant sites and projects for all entrepreneurs, investors, and supporters interested. Through the unique experience of working with dozens of crowdfunding founders and the most successful project creators during a time period in which most sites were pre-development or in beta stages, I've created a myriad of contacts in the industry, discovering how the crowdfunding industry truly works.
