

Matthew Gentry

Professor/Chair at University of Florida

Gainesville, FL, US

Matthew Gentry is a prominent brain metabolism scientist and chair of biochemistry and molecular biology.

Biography

Matthew Gentry is a prominent brain metabolism scientist who has made seminal discoveries regarding brain glycogen and glucose metabolism and how perturbations in these pathways impact neuro-centric diseases. Matthew has nearly 20 years of experience working on glycogen storage diseases and is director of the NIH-funded Lafora Epilepsy Cure Initiative. He is a professor and chair of the Department of Biochemistry and Molecular Biology in the College of Medicine.

Areas of Expertise

Brain Metabolism, Ewing sarcoma, Glycogen, Glycogen Storage Diseases, Lafora Disease
